

My party hat got wet
It's fine, it'll dry
It's just a bit soggy, but it'll dry
And I guess the color is now faded
But at least it'll dry, and it won't be wet anymore

Everyone else has party hats too
I bought them for everyone
And for me
But mine got wet

Why is only mine wet? Who decided that?
It's supposed to be good today
It's supposed to be fine today
But now my party hat is wet

I want new party hats.
These don't fit well anymore.
